EuroSIW 2007
The European Simulation
Interoperability Workshop

Genova, Italy, June 2007

Call for Papers

Deadlines and Requirements: Please submit contributions according to the instructions at the web server *http://www.eurosiw.org*. Accepted papers, after full review by three members of the IPC will be published in the Conference Proceedings.

20 Feb 07	*Abstracts due electronically*
06 Mar 07	*Abstract accept/reject notifications*
20 Apr 07	*Papers due electronically*
18 May 07	*Final paper revisions due*

CALL FOR PAPERS

You are invited to participate in the 2007 SISO European Simulation Interoperability Workshop (Euro-SIW). Please redistribute this message to other relevant email lists, as appropriate. A PDF version of this announcement will be posted on the SISO web site.

This workshop will cover a wide range of modeling and simulation (M&S) issues, applications, and communities. The Workshop will include multiple tracks and special sessions addressing simulation interoperability issues and proposed solutions; tutorials on state-of-the-art methodologies, tools, and techniques; and exhibits presenting the latest technological advances.

LOCATION. The event will run in the middle of Italian Riviera, few miles from Portofino. The International Genoa Airport guarantees easy access, while the "Superba", once Genoa Maritime Republic, will provide the ideal cocktail mixing beaches, culture, historical sites and entertainment.

WORKSHOP REGISTRATION. Registration information will be posted on the SISO web site as soon as arrangements are finalized. Registration will be handled via the IEEE Conference Management Services web site, similar to the way registration is handled for the SIWs in the US. International credit card payments will be accepted.

TUTORIALS. Tutorials will be offered on Monday morning. Watch the Euro-SIW web page for details.

TECHNICAL EXHIBIT INFORMATION. Several types of exhibits and demonstrations will be set up in the Conference Center, ranging from poster sessions by workshop presenters to product demonstrations. If you or your organization would like to set up an exhibit, see the contact information on the Euro-SIW web page.

ABSTRACT SUBMISSION INFORMATION. The Workshop invites papers and presentations relating to distributed simulation applications and technologies, interoperability issues and special topics. Abstracts will be reviewed and selected for consideration by the Program Committee. An "Author's Guide" is posted on the Euro-SIW web page.

Additional information about this Workshop will be posted at the SISO web site and will be updated as further details become available. See www.sisostds.org/eurosiw.htm

PAPER SUBMISSION

Generally, papers and presentations are considered in three main categories:

•User Community Forums - which examine and promote topics of interest related to the use and adequacy of available simulation capabilities and new capabilities needed by M&S users.

•Specialty Area Forums - which examine and promote current and emerging simulation processes and technology.

•Special Sessions - which deal with topics that merit timely solicitation of feedback from the SISO community.

For a detailed list of the Forums, Study Groups, and Product Development Groups meeting at this workshop, and their specific interest areas, see **www.sisostds.org**

Important Deadlines

- **Abstracts Due:**   February 20, 2007
- **Notification of Acceptance:** March 6, 2007
- **Final Paper Submission Due:** May 18, 2007
