

International Mediterranean Modelling Multiconference

**Claudio Congress Center
Italian Riviera
October 4-6 2007**

www.liophant.org/i3m

**European Modelling &
Simulation Symposium**

**New Simulation Project
Workshop**

**McLeod Institute of
Simulation Science
International
Workshop**

**Nanotechnologies
Engineering &
Modelling Outreach
Workshop**

**The International
Workshop on
Modelling & Applied
Simulation**

**The International
Workshop on
Harbour, Maritime &
Multimodal Logistics
Modelling and
Simulation**

Deadlines

Submission of Papers & Session Proposals: March 15, 2007
Notification of Acceptance: May 2nd, 2007
Final Camera-Ready Submission: July 15th, 2007

2007 I3M is sponsored by:

I3M 2007: New Edition

Next year the 4th edition of I3M will be held in Genoa area renovating the opportunity to have an International Multiconference involving different Modelling & Simulation areas and providing an ideal opportunity to meet together in the wonderful framework of the Italian Riviera.

European Modelling & Simulation Symposium - EMSS

The EMSS represents the 19th edition of the classic autumn M&S event in Europe; therefore the Symposium is a really International meeting involving world experts in the area.

New Simulation Project Workshop - NSP

This event is the ideal framework for setting up European Community and International Projects and it is a framework for hosting project review and exploitation meetings; NSP welcome submissions for panel sessions on new simulation project proposal.

McLeod Institute of Simulation Science Workshop

McLeod Institute of Simulation Science (MISS) is a Excellence Network involving 27 centers worldwide; in cooperation with the Society for Modelling & Simulation International, this workshop is a Meeting open to affiliated Centers and to external applicants.

Int. Workshop on Modeling & Applied Simulation- MAS

The MAS Workshop concentrates on applied M&S and computer technologies; application fields include production, business and services. Since 2002 it involves Industries and Experts discussing on the potential of M&S applied in real world.

The International Workshop on Harbour, Maritime & Multimodal Logistics M&S - HMS

HMS Workshop is a traditional event and it was held successfully worldwide, usually in the surroundings of major international ports (i.e. Genoa, Marseille, Riga, Rio de Janeiro, Barcelona). It is focused on applications of simulation and computer technologies to logistics, supply chain management, multimodal transportation, maritime environment and industrial logistics.

Nanotechnologies Eng.&Modeling Outreach Workshop

NEMO2007, as 3rd edition of a meeting featuring research on Nanotechnologies, provides an opportunity to present M&S used in developments of Nanotechnologies The workshop addresses scientists and engineers interested in recent advances on biology, chemistry and engineering

I3M2007 General Chairs

Agostino G. Bruzzone

McLeod Institute of Simulation Science,
Genoa Center - University of Genoa, Italy

Miquel Angel Pera

McLeod Institute of Simulation Science,
Spanish Center – Universitat Autònoma de Barcelona, Spain
