Detailed Program MAS

Posted September 4th, 2009
by i3m2009

[MAS2009](#)

Automation

Session Chair: Naamane Aziz

19 Modeling a Spatial Communication Activity in Wireless Sensors Network. *Jan Nikodem, Ryszard Klempous, Maciej Nikodem, Marek Woda, Zenon Chaczko.*

24 Vehicle Dynamics Control Using Bond Graph with Sliding Mode Observers. *A.Naamane, N.K. Msirdi.*

20 Robust Tuning PSS for Multimachine Power Systems Using Multiobjective Hybridation Technique. *A. Choucha, A. Hellal, S. Arif, A. Hadjadj.*

26 Fuzzy Blending Hybrid Structure with Fuzzy and Conventional PID Controllers. *Cihan Bulut, Ibrahim Eksin, Mujde Guzelkaya, Tufan Kumbasar, Engin Yesil.*

32 Comparative Study with and without Sensor of Speed of a Command by DTC of a Variable Reluctance Motor with Smooth Stator. *M. Birame, L. Mokrani, M.kadjoudj, A. Naamane, N.K.Msirdi.*

27 Control of a pH Neutralization Process via the Big Bang Big Crunch Optimization. *Tufan Kumbasar, Ibrahim Eksin, Müjde Güzelkaya, Engin Yesil.*

Decision Support Systems Applications

Session Chair: Fabio de Felice

6 Modelling of Transport Project Uncertainties: Risk Assessment and Scenario Analysis. *Kim Bang Salling, Steen Leleur.*

28 Proposal of a New Model for the Optimization of the Organizational Process in Industrial Company through the Application of the Analytic Network Process. *Fabio De Felice, Antonella Petrillo.*

29 Two Heuristics for Improving the Efficiency of a Markov Chain Based Decision Making Method. *René Chelvier, Claudia Krull, Graham Horton.*

Estado:
Ninguno

Organizers

Dept. Systems Engineering
and Automation University
of La Laguna. Spain

Claudia Frydman
LSIS, Domaine Universitaire
de Saint-Jerôme. France

An RSVP Model for OPNET Simulator with an
1 Integrated QoS Architecture. *Sibel Tariyan
Özyer, Reza Hassanpour.*

Elaboration of a Composite Score for Designing
10 and Choosing Sustainable "Official Car Policy".
Rigo Nicolas, Ndiaye Alassane Ballé.

Human Behavior Representation and Social Simulation

Session Chair: Mamadou Seck

23 Towards Multi-Level Simulation of Conflict and
Peacekeeping. *Mamadou Seck.*

Simulation and Optimization of Evolution in
2 BioSystems by Information-Theoretic Entropy.
Stanislaw Sieniutycz.

Early Testing Procedures for Supporting
Validation of Intelligent Agents for Simulating
42 Human Behavior in Urban Riots. *Alberto
Tremori, Enrico Bocca, Federico Tarone,
Francesco Longo, Simonluca Poggi.*

Pandemic Dynamic Objects & Reactive Agents.
43 *Terry Bossomaier, Agostino G. Bruzzone, Marina
Massei, David Newth, Joseph Rosen.*

Inventory Management Simulation

Session Chair: Duilio Curcio, Adriano Solis

MRP-DRP Model as a Base for Negotiations in
41 Times of Recession. *Marija Bogataj, Robert W.
Grubbström, Ludvik Bogataj.*

A Linear Programming Formulation for an
Inventory Management Decision with a Service
31 Constraint. *Gerrit K. Janssens, Katrien M.
Ramaekers.*

Warehouse Management: Inventory Control
37 Policies Comparison. *Agostino G. Bruzzone,
Duilio Curcio, Giovanni Mirabelli, Enrico Papoff.*

A Decision Support System for Inventory
22 Management of Intermittent Demand. *Katrien
Ramaekers, Gerrit K. Janssens.*

Modeling and Applied Simulation

Session Chair: Gregory Zacharewicz

Multi Agent/HLA Enterprise Interoperability
25 (Short-Lived Ontology Based). *G. Zacharewicz,
O. Labarthe, D. Chen, B. Vallespir.*

Configuration of a Service and Distribution
17 Network in the Aerospace Industry. *Marcos
Simas Magalhães, Miguel Cezar Santor.*

Monte Carlo Valuation of Power Generating
39 Units. *Ivan Ourdev, Simaan M. AbouRizk,
Mohammed AlBataineh.*

15 A Simulation Model for Light Rail Transportation

System. *Filiz Dumbek, Dilay Celebi.*

- 5 Simulation of the Emersion Procedure for a New Underwater Generator. *Amable López Piñero, José Andrés Somolinos, Luis Ramón Núñez Rivas, Eva María Novoa Rojas.*

Production Simulation

Session Chair: Roberto F. Lu

- 11 Application of Rigid Body Dynamics to 3D Plant Simulation. *I.F. Ceruti, G. Dal Maso, D. Rovere.*

- 34 Introduction of Simulation Method and Possibilities of Standardisation. *József Perger, János Jósvai, András Pfeiffer, Botond Kádár.*

- 7 An Integrated Simulation and Operation Costing Approach to Assess Orders Production Costs: A Real Application. *Antonio Avai, Marzio Sorlini.*

- 12 Modelling and Simulation of a Natural Roofing Slates Manufacturing Plant. *David del Rio Vilas, Diego Crespo Pereira, Juan Luis Crespo Mariño, Alejandro Garcia del Valle.*

- 35 Production Process Modeling and Planning with Simulation Method, Mounting Process Optimisation. *János Jósvai.*

- 8 Flexible Production Simulation for Applied Sciences. *Klaus Altendorfer, Josef Pilstl, Alexander Hübl, Herbert Jodlbauer.*

- 33 Self-Building Simulation Tool for Daily Decision Support in Production Control. *András Pfeiffer, Botond Kádár, Marcell Szathmári, Gergely Popovics, Zoltán Vén, László Monostori.*

Production Systems design

Session Chair: Antonio Cimino, Francesco Longo

- 18 Problematic Research Design in Quality Management - Is Agent-Based Simulation a Panacea?. *Bizhan Jamshidnezhad, Alan Smith.*

- 36 Industrial Workstations Design: A Real Case Study. *Antonio Cimino, Francesco Longo, Giovanni Mirabelli, Enrico Papoff.*

- 9 Simulating the Integration of Original Equipment Manufacturer and Suppliers in Fractal Environment. *Sameh M. Saad, Julian C. Aririguzo.*

- 40 Retail Stores Modeling: Comparison between Simulation and Virtual Reality Approaches. *Francesco Longo, Marina Massei, Enrico Papoff, Sabrina Rondinelli.*

- 44 How to Support Firm Environmental Innovation: The Case of the VOCless Mechanical Pulping Project. *Stefano Saetta, Lorenzo Tiacci.*
