

# The 8th International Mediterranean & Latin American Modelling Multiconference

**ErGife Palace  
Rome, Italy  
September 12, 14, 2011**

[www.liophant.org/i3m](http://www.liophant.org/i3m)

**General Chairs:**

**Prof. Agostino Bruzzone**

*Simulation Team M&S Net, MISS-DIPTEM University of Genoa, ITALY*

**Prof. Miquel Angel Piera**

*MISS-Spanish C. Univ. Autònoma de Barcelona, SPAIN*

**Program Chairs:**

**Prof. Francesco Longo**

*M&S Net MSC-LES, ITALY*

**IMAACA**

Int. Conference on Integrated  
Modeling & Analysis in  
Applied Control & Automation

New Simulation Project  
Workshop

European Modeling &  
Simulation Symposium

Int. Defense & Homeland  
Security Simulation Workshop

McLeod Institute of  
Simulation Science  
Workshop

M&S Network  
Workshop

The International  
Conference on Modeling  
& Applied Simulation

The International  
Conference on Harbour,  
Maritime & Multimodal  
Logistics Modelling &  
Simulation

## I3M 2011: New Edition

Next year the 8<sup>th</sup> edition of I3M will be held in Rome, Caput Mundi and Italy Capital, renovating the opportunity to have an International Multiconference involving the different topics related to Modeling & Simulation and providing an ideal opportunity to meet together in a unique framework.

## European Modelling & Simulation Symposium - EMSS

The EMSS represents the 23<sup>th</sup> edition of the classic autumn M&S event in Europe; the Symposium is a really International meeting involving world experts in the area of M&S with special attention to methodologies, techniques and applications.

## M&S Net New Simulation Project Workshop - NSP

This event is the ideal framework for setting up European Community and International Projects and it is an opportunity for hosting project review and exploitation meetings; NSP welcome submissions for panel sessions on new simulation project proposals.

## McLeod Institute of Simulation Science Workshop

McLeod Institute of Simulation Science (MISS) is a Excellence Network involving worldwide 28 centers; in cooperation with the Society for Modeling & Simulation International, this workshop is a Meeting open to affiliated Centers and to external applicants.

## The International Conference on Modeling & Applied Simulation- MAS

The MAS Workshop concentrates on applied M&S and IT Solutions; application fields include production, business and services; since 2002 MAS involves Experts and Users discussing about M&S as enabling technology for business and industry in real world.

## The International Conference on Harbour, Maritime & Multimodal Logistics M&S - HMS

HMS Workshop is a traditional event and it was held successfully worldwide, usually in the surroundings of major international ports. It is focused on applications of simulation and computer technologies to logistics, supply chain management, multimodal transportation, maritime environment and industrial logistics.

## M&S Net Workshop

The MS&Net workshop aims to create an evolving framework for sharing experience and knowledge in which participants have the possibility of effective cooperation. Tracks organization is intended to cover all the research areas of MS&Net centers: knowledge exchange is the key of successful collaborations.

## DHSS Workshop

DHSS focuses on M&S advances within Defense and Homeland Security framework; DHSS & I3M are concurrent and collocated with NATO CAX Forum in Rome, bringing together involves industrial, governmental and academic top experts.

## IMAACA Conference

IMAACA focuses on all applications relevant to control & automation problems emphasizing the role of model analysis as integral part of the complete design of the automated system.

## Deadlines

Track and Proposal	October 15, 2010
Paper submission	April 15, 2011
Notification of Acceptance	May 15, 2011
Final Camera-Ready Submission	June 15, 2011

[www.msc-les.org/conf/i3m2011](http://www.msc-les.org/conf/i3m2011)

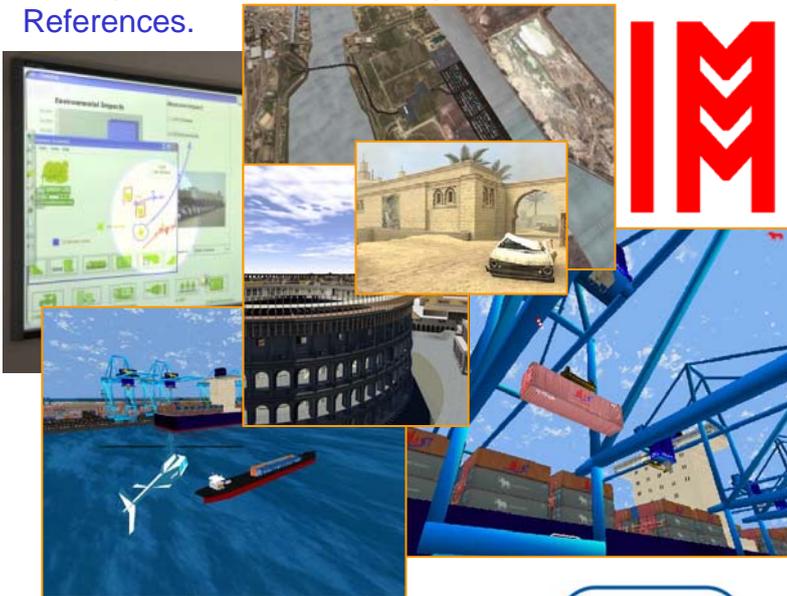

## Track and Session Proposals

I3M solicits proposals for possible Track or Sessions for each Conferences and Workshop to ensure that the Program reflects worldwide concerns and needs for M&S advances.

A Track is expected to collect at least 2-4 sessions, while a Session includes usually 3-4 papers.

Tracks and Sessions Proposals need to be submitted to I3M Conference Chairs and or Specific Conference/Workshop Organizers; the proposals need to include Proposal Title, Description, Related Subjects and Chairs References.

## Paper Submission

Extended abstracts, full draft papers or other proposals should be submitted for the review process through the conference website.

Each extended abstract must include the title, authors, affiliations, addresses, main body and references for proper positioning in the conference. Each paper will be reviewed by at least two members of the International Program Committee taking into consideration scientific quality, originality and relevance. Only original papers, written in English will be accepted.

Your camera ready paper must be submitted through the conference website. Authors of accepted papers are expected to attend the conference, present their works, transfer copyright and pay conference registration fees at the time their camera ready papers are submitted.

Conference best papers will be directed to International Journals for possible inclusion through content extension.
