The International Conference on Integrated Modeling and Analysis in Applied Control and Automation

IMAACA 2015
The 9th International Conference on Integrated Modeling and Analysis in Applied Control and Automation
September 2015
Berggeggi, Italy

Objectives and Scope
IMAACA 2015 will bring experts together for the purpose of presenting and discussing the state of the art in multidisciplinary control and automation problems emphasizing the role of model analysis as integral part of the control design of the addressed system. Participants are invited to present original research, technical, and book contributions in order to support an integrative view of modeling, identification, simulation, system analysis and control theory in all the stages of system design.

The 11th International Multidisciplinary & Simulation Multiconference

University of Bordeaux – Bordeaux, France - September 10-12, 2014

The day that grief visits our hearts is not a time for short summaries and quick snapshots of our loved one's life. It is a time to remember deeply a man how's ready to sacrifice for Noble Goals, me and all his friend here in Iraq, we will never forget one of Italian heroes and how he helped our People against the Terrorism at the time where the real friend were very few. We will never forget a man with big heart and a sweetest smile such as Gianni.
