Between Now and the Future with Modeling and Simulation

Aims and Scope

The Summer Simulation Conference 2014 (SummerSim'14) is SCS's premier international conference in cooperation with ACM SIGSIM. The conference focuses on modeling and simulation, tools, theory, methodologies and applications and provides a forum for the latest R&D results in academia and industry. This year's focus is on hybrid, discrete and continuous systems, and advanced modern applications thereof. We encourage you to take this opportunity to experience the tutorials, tracks, and workshops that will be available.

Conference Venue

The Hyatt Regency Monterey

Monterey was the capital of Alta California from 1777 to 1846 under both Spain and Mexico. It was the only port of entry for taxable goods in California. In 1846 the U.S. flag was raised over the Customs House, and California was claimed for the United States.

The city had California's first theatre, public building, public library, publicly funded school, printing press, and newspaper. The city and surrounding area have attracted artists since the late 19th century and many celebrated painters and writers have lived there. Until the 1950s, there was an abundant fishery.

Among Monterey's notable present-day attractions are the Monterey Bay Aquarium, Cannery Row, Fisherman's Wharf and the annual Monterey Jazz Festival.
