

2018 SUMMER SIMULATION MULTI-CONFERENCE

M&S AS A DISCIPLINE: THE ESSENTIAL M&S TOOLBOX

**JULY 9-12, 2018 | UNIVERSITY OF BORDEAUX | BORDEAUX,
FRANCE**

The Summer Simulation Multi-Conference 2018 (SummerSim'18) is a combination of the 50th Summer Computer Simulation Conference (SCSC), the 21st International Symposium on Performance Evaluation of Computer and Telecommunication Systems (SPECTS) and the 13th International Conference on Bond Graph Modeling (ICBGM). SummerSim is SCS's premier international conference in cooperation with ACM SIGSIM. The conference focuses on modeling and simulation, tools, theory, methodologies and applications and provides a forum for the latest R&D results in academia and industry. We encourage you to take this opportunity to experience the tutorials, tracks, and workshops that will be available.

Authors of accepted papers are expected to attend the conference, present their work to their peers, transfer copyright, and pay a conference registration fee at the time their camera-ready paper is submitted. All papers will be included in the conference proceedings and possibly archived in the ACM and IEEE Digital Libraries, and will be indexed in DBLP and SCOPUS.
